---

## SUMMARY

Software Developer with experience in designing, developing, and maintaining secure and efficient applications. Proven ability to solve problems, improve systems, and deliver software solutions to support organizational goals. Capable of collaborating with teams to ensure systems are reliable, user-friendly, and aligned with business needs.

## WORK EXPERIENCE

---

### Computer Programmer II

Oct 2024 - Present

*Civil Aeronautics Board*

- Designed, developed, and maintained software systems and web applications specific to the organization's projects and initiatives.
- Enhance system performance by optimizing and refactoring code-base and implement improvements as needed.
- Wrote and improved technical documentation for software and internal systems.
- Built and maintained responsive internal web applications using Vue.js, Laravel, and MySQL.

### Report Analyst & RPA Developer (*Robotics Process Automation*)

Feb 2024 - July 2024

*SP Madrid & Associates*

- Developed automated reporting processes using tools like Microsoft Excel, SQL, and UiPath.
- Ensure the accuracy and reliability of the reports by verifying data integrity, performing data quality checks, and cross-referencing information from multiple sources.
- Developed, configured, and tested RPA bots to automate manual and repetitive processes.
