EXPERIENCE

Full Stack Developer

March 2026 – Present

Etiqua Life & General Assurance Philippines, Inc.

Makati City, Philippines

- Built a modern customer portal using Nuxt.js and .NET Core to replace legacy monoliths, to achieve 50% faster feature deployment.
- Built fast portal features using Nuxt.js SSR and optimized SQL stored procedures to achieve 60% faster data retrieval.
- Enhanced support efficiency by doing rapid BAU bug fixes, resulting in reduced TAT and higher client satisfaction
- Improved system security posture by doing swift remediation of VAPT vulnerability findings.

Software Developer

Oct 2024 – Mar 2026

Civil Aeronautics Board — Department of Transportation

Pasay City, Philippines

- Built responsive aviation regulatory applications using Vue.js, Laravel, and MySQL to achieve automated workflow processing.
- Improved legacy system architecture by doing modern framework integration, resulting in updated tech stacks and reduced maintenance overhead.
- Built automated data systems using Laravel APIs and MySQL to achieve seamless inter-departmental sharing and less manual paperwork.
- Improved system maintainability by doing standardized API specifications, resulting in streamlined code handovers

RPA Developer

Feb 2024 – July 2024

SP Madrid & Associates

Parañaque, Philippines

- Built enterprise RPA bots using UiPath, SQL, and Excel to achieve fully automation of repetitive, manual reporting workflows.
- Built automated pipelines using UiPath and SQL to achieve instant data extraction across internal systems.
- Improved reporting TAT by doing SQL query optimization and UiPath bot testing

PROJECTS

Teddy | *Next.js, TypeScript, Prisma, PostgreSQL, OpenAI API, Tailwind CSS* [Live Demo]

- Engineered an intelligent pet rehoming ecosystem using Next.js, Prisma, and PostgreSQL to achieve paperless adoption workflows and streamlined digital contract handovers.
- Built a dual-mode interview system using OpenAI APIs and Next.js App Router to achieve real-time candidate screening with live supervisor interjection capabilities.
- Improved shelter reviewer productivity by doing automated interview summary generation, resulting in 80% faster post-interview candidate evaluations.

Komyut | *Next.js, TypeScript, Prisma, PostgreSQL, Redis*

- Developed a community Q&A platform to digitize public transport routing knowledge.
- Engineered a hybrid search engine using PostgreSQL full-text search and pgvector semantic embeddings text-embedding-3-small to surface relevant routes.
- Integrated OpenAI's GPT-4.1-mini for automated route tag extraction and real-time contextual similarity retrieval

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, PHP, C#, SQL

Frameworks & Libraries: Next.js, React, Vue.js, Laravel, FilamentPHP, Node.js, Express, .NET Core, Prisma

Databases & Cloud: PostgreSQL, MySQL, MS SQL Server, Redis, Supabase, Docker, IIS

Tools & Protocols: Git, GitHub, Postman, Figma, RESTful APIs, OAuth 2.0, JWT, NextAuth.js

EDUCATION

Bachelor of Science in Information Technology | *STI College Rosario*

2020 – 2024

- Magna Cum Laude (GWA: 1.23)
- Best Presenter Award during College Fair Technology & Innovation
- Best in Thesis: Airsoft Gun Management System w/ 3D Visualization
- 1st Runner up: Online Programming Competition
